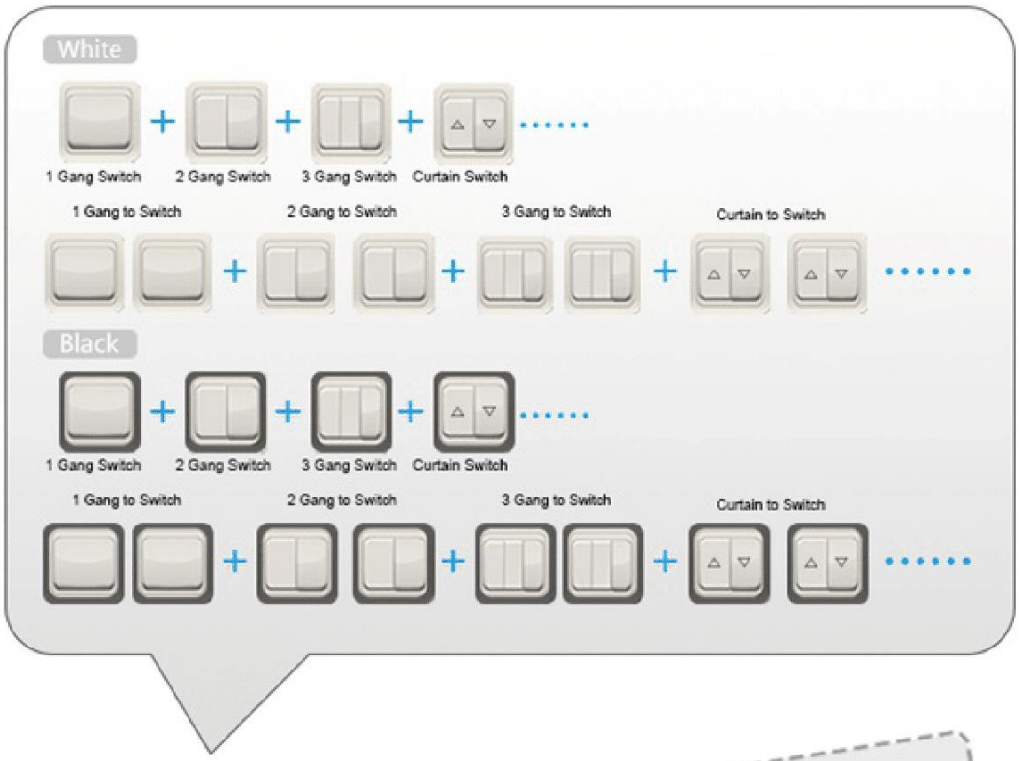
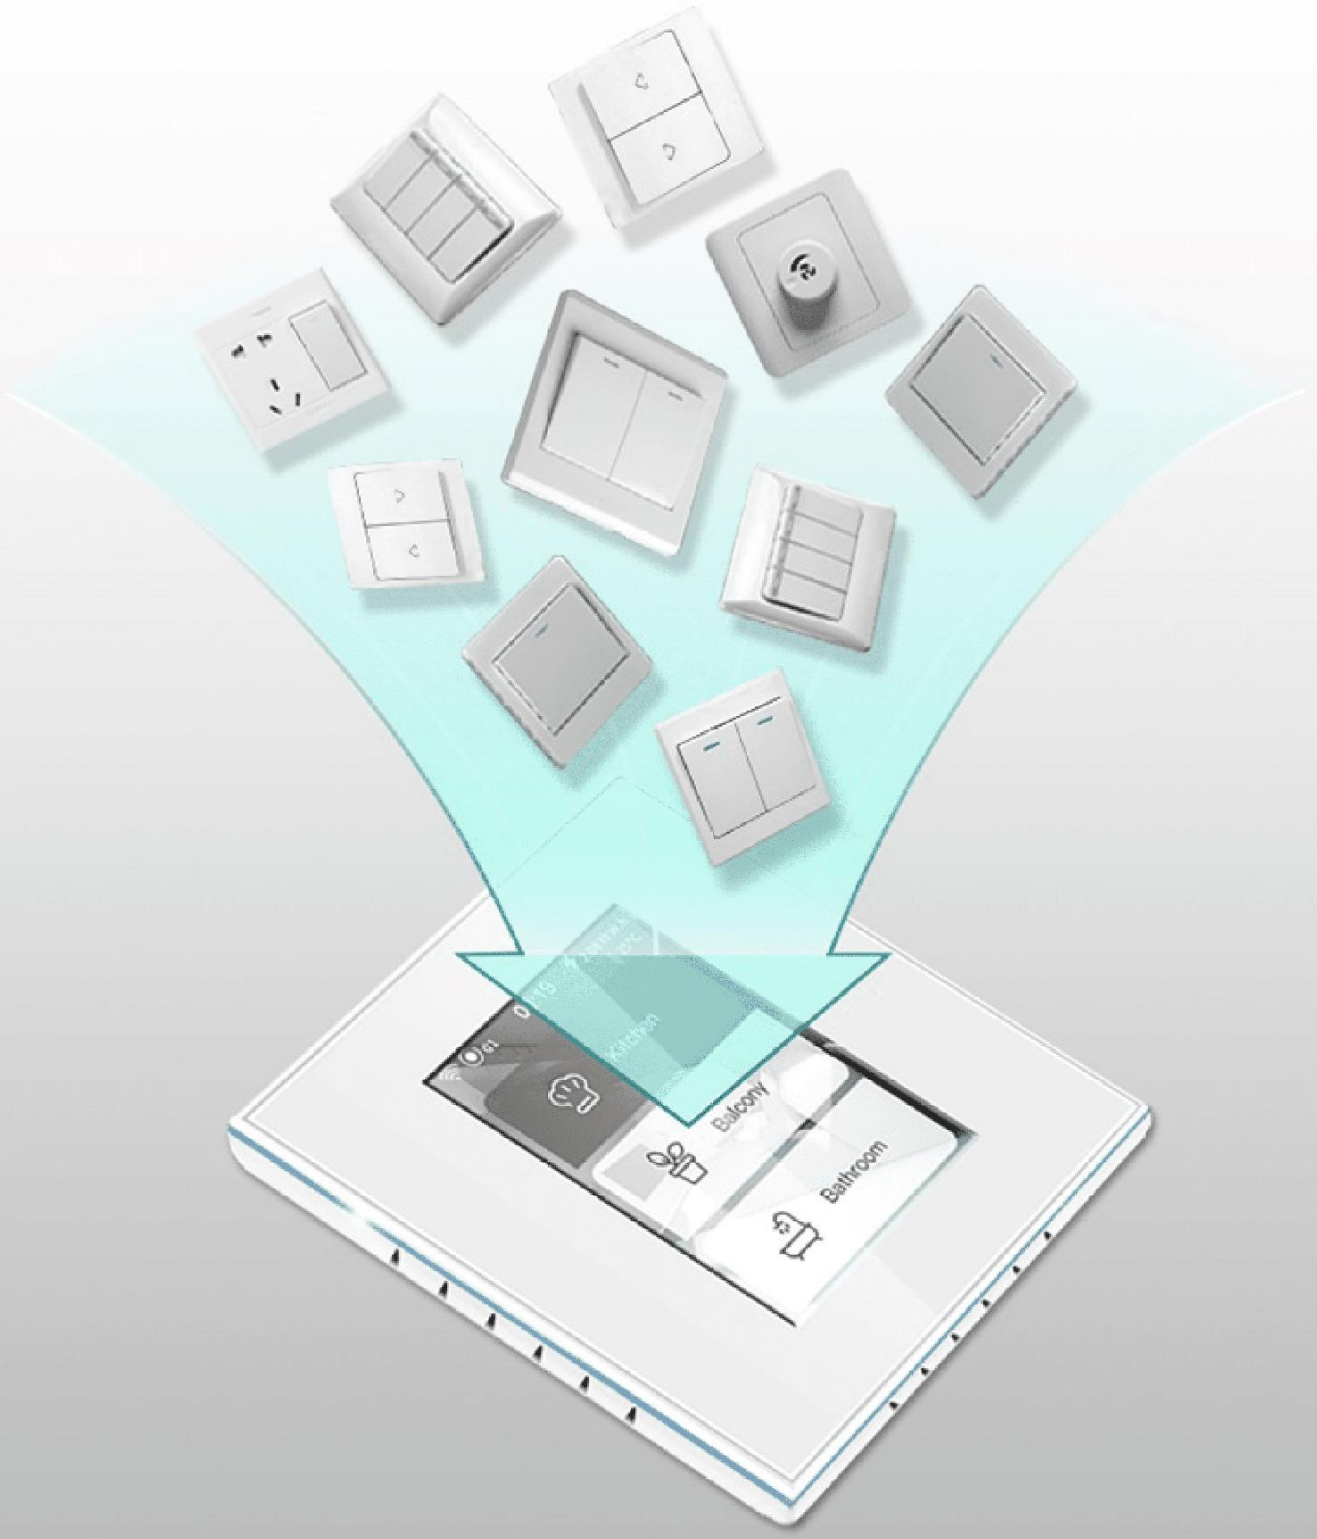
Disadvantage of Traditional Switches (1)

Traditional switches generally come in 10 to 20 models, finding the right model for replacement can be difficult.



L8 Smart Switch , 5 Models in 1

One switch is equivalent to twenty traditional switches



Advantages of the L8 Smart Switch Versus Traditional Switches

Traditional Switch	L8 Smart Switch
	 L8 LCD Smart Switch
High transportation cost Purchase 1000PCS for each model, total purchase 10000PCS	Save transportation costs Only 2000PCS needed for each model
Large inventory warehouse area and high rent	Save warehouse space and low rent
High management and after-sales labor costs	Save labor cost

Disadvantages of Traditional Switches (2)

Traditional switches are mostly mechanical plastic switches with no inherent way to mark the room, lights, or applications controlled by the switch. This makes it inconvenient when there are too many switches at home. It takes more than a few times to find the correct switch.

L8 switch: freely edit the icon and name of each switch

The name of the device controlled by each switch can be customized, and the icon supports multiple languages, which is clear and beautiful at a glance

Speaker Voice Control

Support Amazon, Google homepage, HOME KIT mobile APP
Just say "turn on the light" and the light will turn on,
and the light will turn on or off according to the command

"Alexa, turn on Lights"
"Alexa, turn off Lights"
"Alexa, set Dimmer Light Switch to 10 percent"

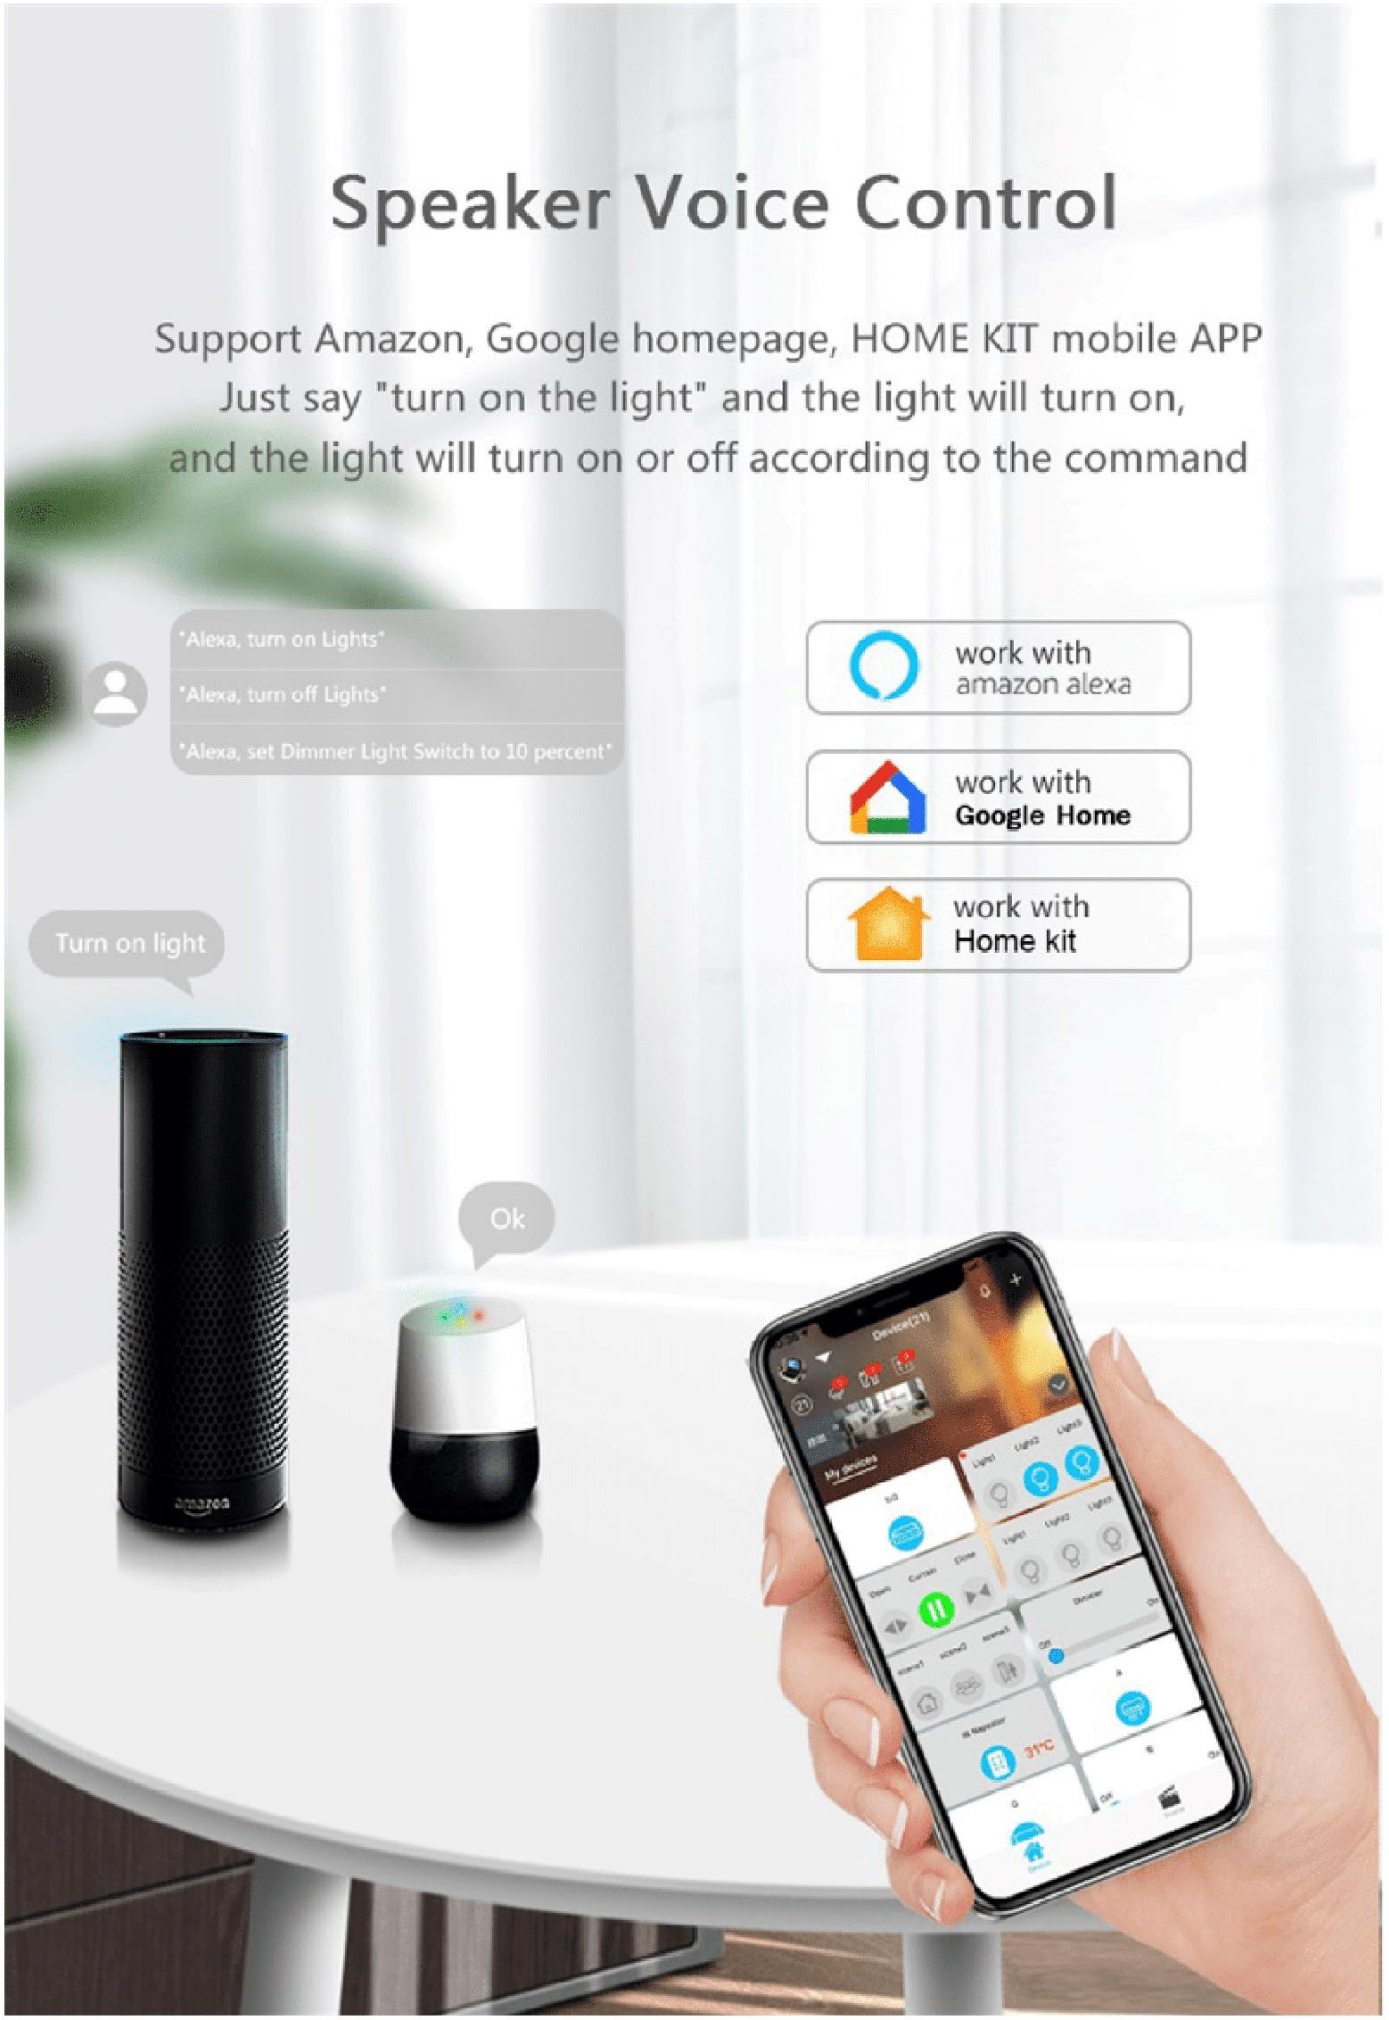
Turn on light

Ok



Electricity Statistics

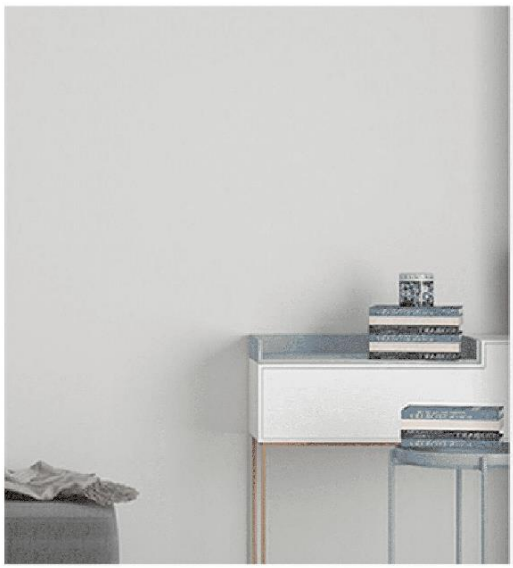
The L8 switch can monitor the electricity consumption of each switch in real time and give regular feedback, and all data can be saved to save energy and reduce consumption.

Set up Atmosphere light

You can set various lighting effects, enjoy different lighting atmospheres, experience different life scene environments, and set a romantic and warm comfort with one click.

Customizable Interface Style

The L8 Smart Switch has various interface styles that can be customized to match the style and decor of any room.



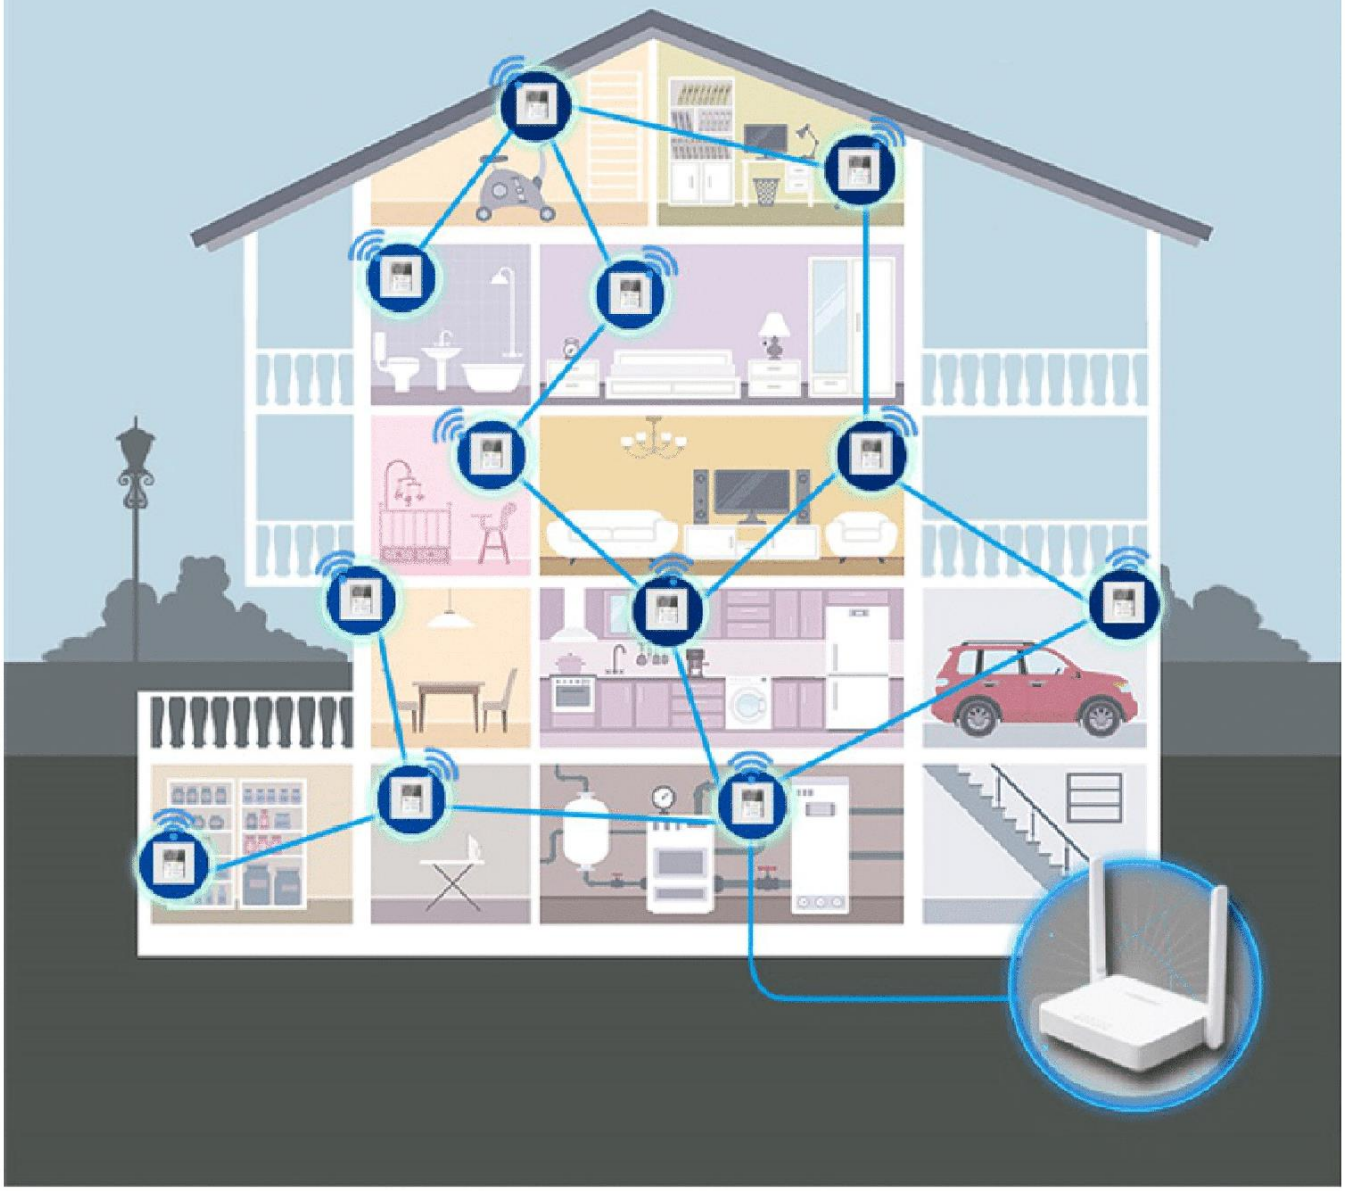
Elegant Style

European Style

Cute Style

WIFI-MESH Network

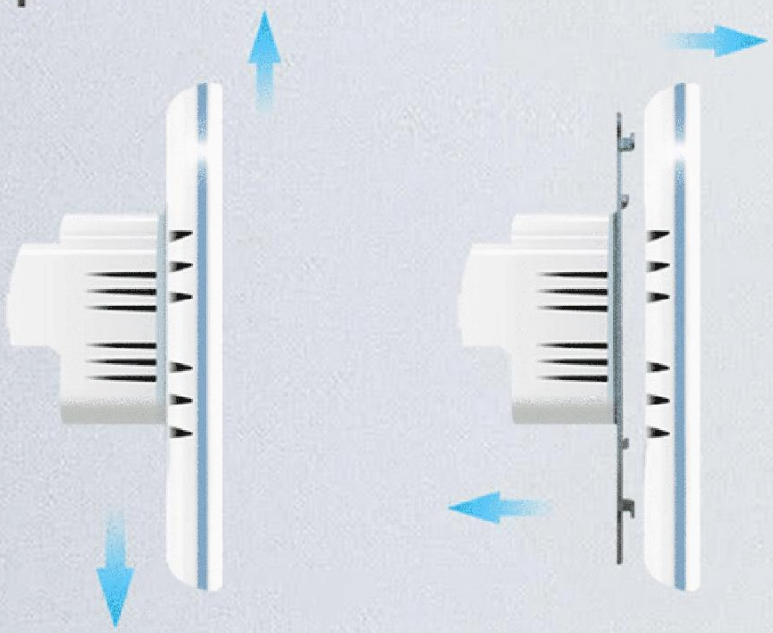
The L8 switch adopts the most advanced MESH technology, which can automatically connect to the Internet, which is faster and more stable, and the signal can easily cover the entire room.。



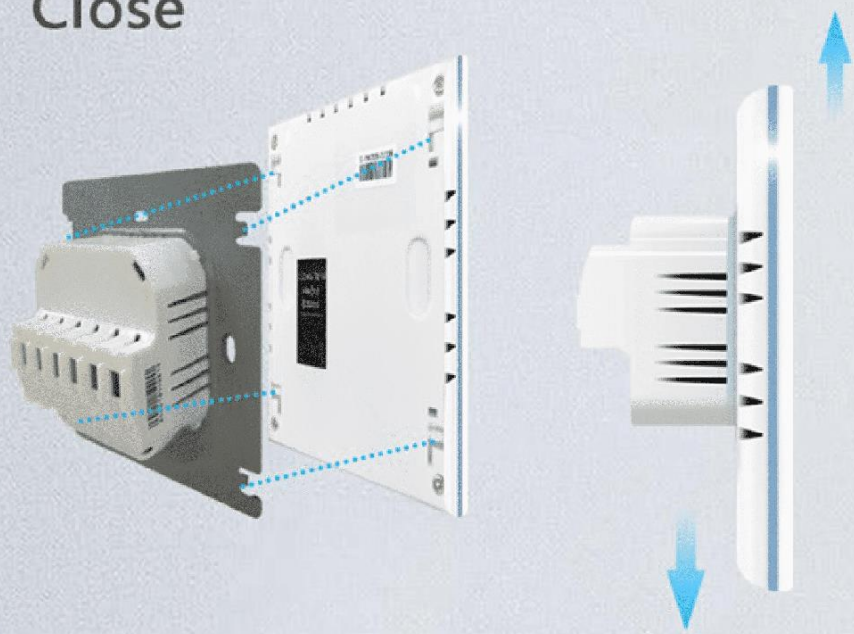
Split Design

Installation and after-sales maintenance are simple and convenient

Open



Close

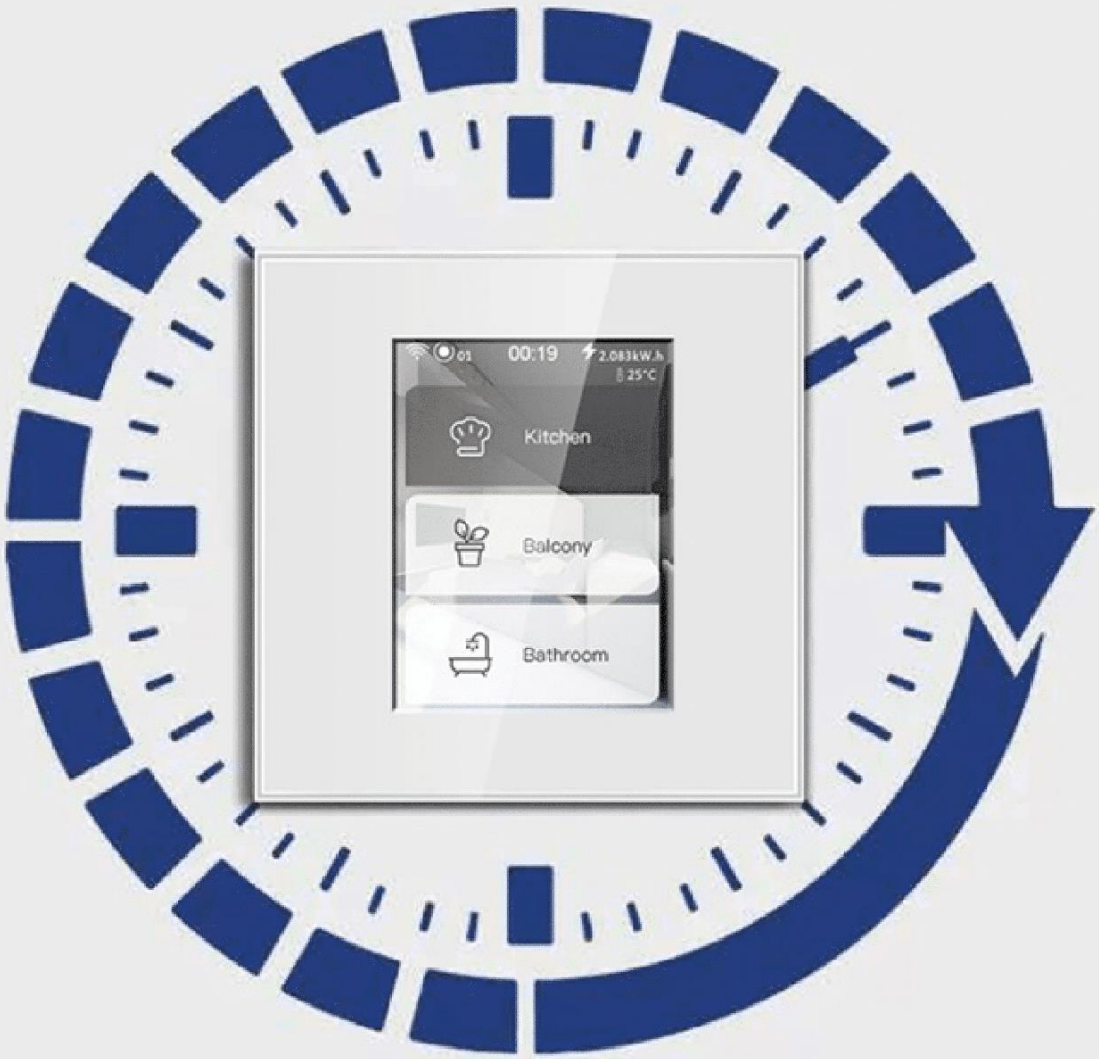


Scan Code Configuration

You can scan the code with one key, add equipment,
complete the configuration, simple operation,
more stable and reliable.

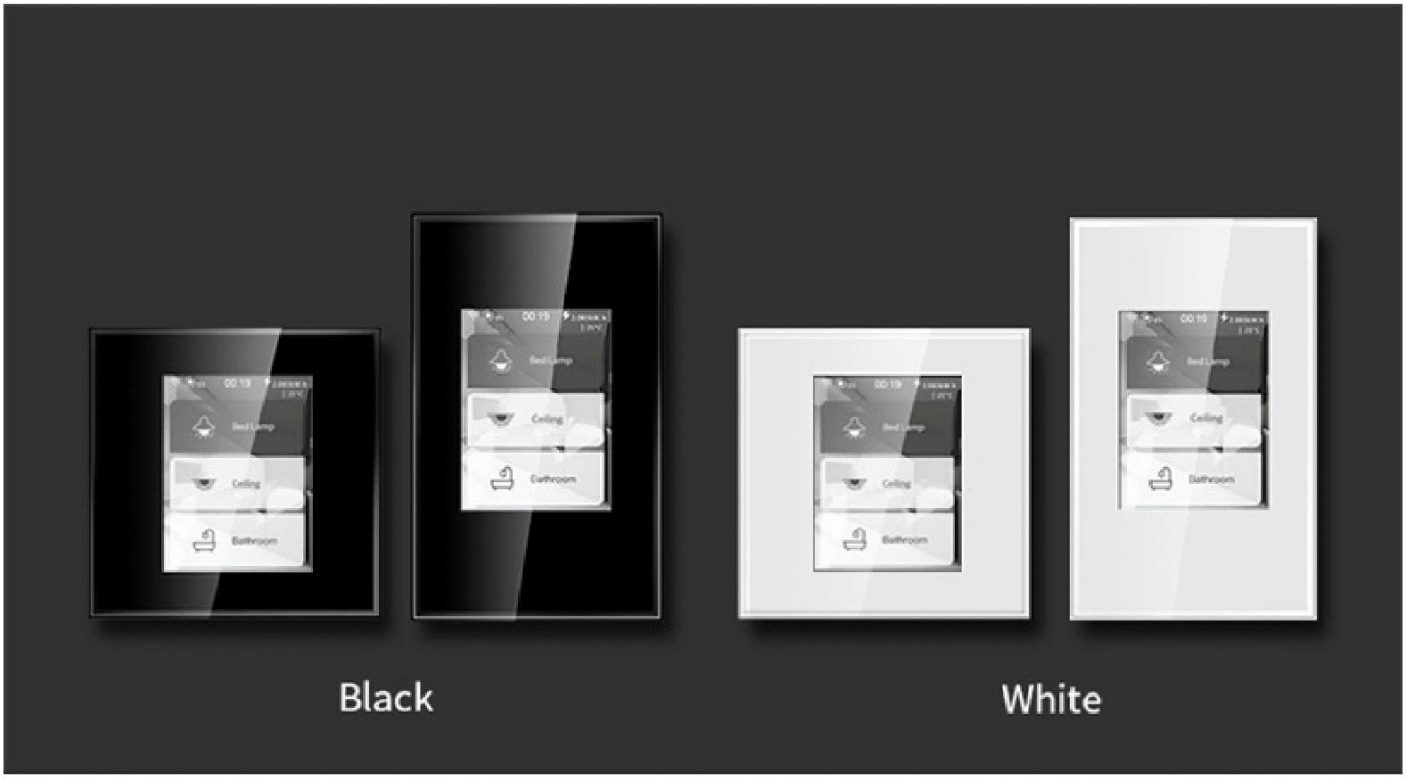
On/Off Timer

Applications can be set to automatically turn on or off using customizable timer presets, which helps to extend the lifespan of home appliances, helps to save energy, in addition to being environmentally friendly.



Package Information

Each carton contains 54 pieces/boxes



PRODUCT PARAMETERS	
SIZE:	86×86mm/120×74mm
ITEM NO:	L8-HS
WEIGHT:	0.3kg
PACKING BOX SIZE:	102.6mm*141mm*51.1mm
PANEL:	Tempered Crystal Glass
BOTTOM MATERIALS:	Retardant PC
RATED VOLTAGE:	AC 100-250V 50/60Hz
RATED LOAD:	200W
LOAD TYPE:	INCANDESCENT LAMP, ENERGY SAVING LAMP, FLUORESCENT
WIRELESS STANDARDS:	IEEE 802.15.4
FREQUENCY RANGE:	2.405GHz~2.480GHz
RECEIVING SENSITIVITY:	-97dBm@250kbps
OPERATING TEMPERATURE:	-25 degree to +60 degree
RELATIVE HUMIDITY:	<95%
